

How to Change-Out a Shepherd Filter

1

Remove dirty filter

2

Grab back of filter and handle, pull to separate filter components

3

Remove frame cover

4

Pull back the soiled filter and dispose in regular trash receptacle

5

Replace with a clean Shepherd Filter

6

Re-install cover on the clean filter. Then line up the interlock on the frame and cover (nipples/dimples).

7

Put the entire unit back into the hood

8

Finish Strong!
